| **Name** | Lâm Nguyễn Bửu Duy | **Birth** | 08/07/2001 |
| **Phone** | +(84) 901091872 | **Email** | angelnho36@gmail.com |
| **Profile** | https://profile-lamduy0807.vercel.app/ | **Address** | Ho Chi Minh, Viet Nam |

## Overview

I have been acquiring knowledge in Javascript, HTML, CSS, ReactJS library, and SQL, along with my knowledge of communication and quick learning skills, through my working experience. I currently look for an environment to grow and contribute to the development of innovative and high-quality web applications. I am also well-versed in Agile methodologies and used to work on an Agile Scrum team.
I am also confident in English communication, both verbal and written.

## Work experience

**04/2023 – present** — **Manifera Software Development Co. Ltd.**

*Frontend developer (4/2023 - 12/2023), Fullstack Developer (12/2023 - present).*
- Participating in software development. Tech Stacks: React JS, PHP laravel.
- Gain knowledge of how to build a reliable, scaleable, and high performance application.
- Research and apply MUI, and use Mobx-state-tree to manage state
- Communicate with the client in English and give advice on their requirements based on the technology aspect.
- Working in an international environment using Agile methodology.

**08/2023 – 01/2024** — **Freelancer developer**
- Participating in software development. Tech Stacks: React JS and Rust.
- Research automation testing with rust and apply it to the automation app.
- Practice and improve database design skills.

**06/2022 - 09/2022** — **Vitalify ASIA Co.**

*Intern Front-end Developer*
- Programme outsourcing projects.
- Apply knowledge and provided materials to learn and build.
- Complete the basic components and functions based on figma design.
- Have a deeper insight into teamwork and workflow in an initial project.

## Education

**07/2019 – 6/2023** — **University of Information and Technology - UIT**

*Major - Software engineering
*GPA: 8.49

## Skills

**Main**
- HTML, CSS, JavaScript (ReactJS)
- PHP laravel
- MySQL, SQL server, NoSQL (Firebase)
- Rust

| Other | • Python (Django Restframework) |
| --- | --- |
| | • C++, C# winform, Java |

## Projects

### Orderex
(04/2023 - present)

| Descriptions | Orderex is a simple-to-use online procurement platform, for buyers and sellers. |
| --- | --- |
| Number of members | 4 |
| Position | Fullstack Developer |
| Responsibilities | - Building the UI/UX of the website using Figma design from the team designer using ReactJS and MUI with reusable, testable, and efficient code.<br>- Building APIs to render data in FE.<br>- Taking part in Agile Project Development. |
| Technology in use | - Frontend: ReactJS.<br>- Backend: PHP laravel.<br>- Libraries: MUI, i18next. |
| Skills | - Build a website from figma.<br>- Improve the problem solving skills, catch up with lastest tech stacks.<br>- Teamwork and communication. |

### Super Suport Software
(08/2023 - 01/2024)

| Descriptions | An automation app supports managing products in Mercari (an e-commerce platform in Japan). |
| --- | --- |
| Number of members | 4 |
| Position | Backend Developer. |
| Responsibilities | Backend Developer. |
| Technology in use | - Frontend: ReactJS.<br>- Backend: Rust. |
| Skills | - Improve the ability to research, analyze, and design databases.<br>- Integrate automation testing into the application.<br>- Teamwork and communication. |

### Blood pressure premium OSK
(07/2022 - 09/2022)

| Descriptions | A Blood pressure webview with many custom charts to analyse and recommend for users. |
| --- | --- |
| Number of members | 8 |
| Position | Frontend Developer. |
| Responsibilities | - Build the UI/UX of the website using Figma design from the team designer and ReactJS (Webview).<br>- Using Atomics design to manage components and Mobx to manage states. |
| Technology in use | - Frontend: ReactJS.<br>- Backend: PHP (Laravel).<br>- Libraries: Framework7, Victory chart. |
| Skills | - Improve the ability of self-study, research, and read english documents.<br>- Build a website from figma.<br>- Have knowlegde in custom Framework7 library accroding to designs from customer.<br>- Teamwork and communication.<br>- Improve coding convention. |
